MCP Acceptance Test Page

This page was created during **DokuWiki MCP Acceptance Testing** on [date](#) by Jane Alesi.

Test Objectives

- **Function Testing:** Validate all MCP functions except DELETE
- **Documentation Quality:** Assess tool descriptions and usability
- **Performance:** Measure response times and error handling
- **Integration:** Test namespace, linking, and search capabilities

Test Categories

COMPLETED

1. System Information Functions
2. Namespace Discovery
3. Page Listing & Search
4. Content Retrieval (Raw + HTML)
5. Enhanced Page Analysis
6. Link & Relationship Analysis
7. History & Versioning
8. Permissions & Security
9. Page Creation (this page!)

IN PROGRESS

1. Page Updates & Modifications
2. Media File Testing
3. Lock/Unlock Testing

Technical Specifications

Function Category	Status	Performance	Documentation
System Info	<input type="checkbox"/> Excellent	Fast	Clear
Page Operations	<input type="checkbox"/> Excellent	Good	Comprehensive
Search & Discovery	<input type="checkbox"/> Excellent	Fast	Well-documented
Analysis Features	<input type="checkbox"/> Outstanding	Good	Rich metadata

Code Testing

```
# Example MCP function call
dokuwiki_get_page_info_enhanced(
  page="projekte:24926:start",
  include_analysis=true
)
```
